

Griffith College Bridging Subjects

Bridging Subjects are offered to Diploma students* absolutely FREE!
PLUS you can still complete your Diploma in just one year.

What is a Bridging Subject?

Bridging subjects are available to you if you do not possess the pre-requisite (or 'need to have') knowledge for your Diploma program. They are studied in addition to your Diploma subjects and are completed in your first semester.

Why would I need to take a Bridging Subject?

Griffith College *assumes* you have the required knowledge to succeed in your Diploma (e.g. Maths B for Engineering). If you do not have the required knowledge, you can still enrol in the Diploma and undertake one or more of our FREE Bridging Subjects in your first semester of study. If you do not have the assumed knowledge and you do not undertake the necessary Bridging Subject/s, you may experience difficulty with some aspects of the course.

What is the difference between 'Pre-requisite Study' and 'Assumed Knowledge'?

① **Pre-requisite Study:** This is the study you are required to have completed in order to be eligible for entry to a Diploma program.

① **Assumed Knowledge:** This is the 'need to have' knowledge that we assume you have in order to satisfy the pre-requisites required for entry to a Diploma program.

Griffith College does not have pre-requisite for entry to our programs. Instead students are admitted to our programs using the assumed knowledge criteria listed in the Program information.

How many Bridging Subjects can I study and at what cost?

For programs which list multiple Assumed Knowledge requirements, e.g. 'English and one of Biological Science, Chemistry, Physics or Maths B'; students may elect to enrol in two free Bridging Subjects (e.g. English + Maths B; or English + Chemistry). Any additional subjects will be at your own expense.

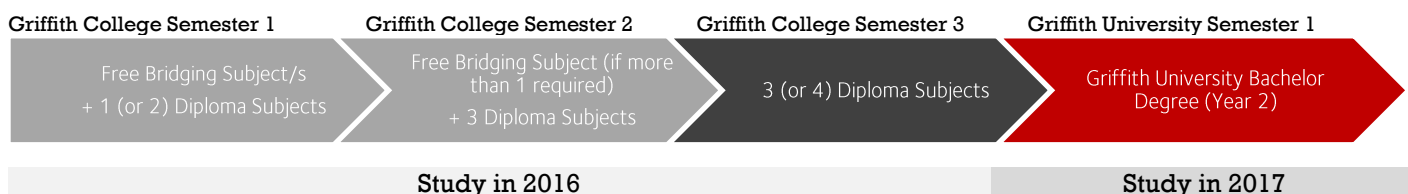

Assumed Knowledge	Subject Name & Subject Code	Campus	Cost
English	Communication Skills II (COM201A)	MG & GC	FREE
Maths B	Maths 1 (MTH1)	MG & GC	FREE
Chemistry	Chemistry (CHE001A)	MG & GC*	FREE
Physics	Physics 1 (PHY001A)	MG & GC*	FREE
Biology	Biology (BIO001A)	MG & GC*	FREE

* Not offered every semester. For more information, please contact Griffith College.

Can I still complete my Diploma program in 12 months?

Yes! You can complete the Bridging Subject/s at the same time as enrolling in some subjects from your Diploma. We recommend that you take a reduced study-load in your first semester (i.e. 3 subjects or less) and schedule your study across all three semesters in the calendar year. This will increase your chances of success.

The diagram below shows how it is possible for you to complete your Diploma program within a twelve month period and articulate to the 2nd year of the relevant Griffith University degree program in 2016.

**Students must successfully complete all 8 subjects in the Diploma and meet relevant entry criteria to articulate to the Griffith University bachelor degree.*

I'm ready to apply! What should I do now?
